Work on Santa Fe Telegraph Line. The rebuilding of the railroad tele-traph lines in this section is completed and the linemen engaged in the work moved nearer Los Angeles, says the San Bernardino Times-Index. Besides putting up new wires, the route bas been changed, shortening the distance somewhat and additional wires have been strung, giving the company several independent wires between Los Angeles and Topeka.

Orient Is an Interstate Road.

The Orient railroad company has already become big enough to get behind the interstate commerce law in fix disputes with Kansos people over freight rates. It was made a party to the suit commenced before the state railroad doard by the city of Anthony against an increase in jobbers' rates at that point. The other five railroads answered the

complaint, claiming that the proposed increase was reasonable. The Orien, answered that its business was interatate and for that reason the railroad board had no jurisdiction over it in the

The annual meetings of the Illinois Central are unique in that they are attended by the small stockholders who reside along the lines of the company, and who are given passes to and from this homes upon these occasions. Last week's meeting was the largest in the history of the company, fully 200 small stockholders, among them being a score of women, being present.

President Fish made the less important members of his Illinois Central ramily feel perfectly at home. He told them that the increased attendance showed that the stock of the company, was becoming more and more diversified in holdings among the common people.

The fun of it was that the way and nobody knew anything should up and nobody knew anything should their job and disappeared. It occurred on the Santa Fe Pacific a little more than a week ago. Setween Ash Fork and Williams, the baggage agent, areording to the Enterprise, left the blind door open for a moment, and before he could return several tramps had locked themselves in and the agent out. They parleyed with him from within, agreeing to get out at the next station if he would allow them to make" the division "going it blind." To this he consented, and the agent at the next stop. When the second this firm did not come out for several stops. For some reason—probably he did not wish to expose his own carelessness—the agent did not mention the matter to any of the train, and when the baggage man entered he discovered that trunk after trunk had been opened and looted, and that from on trunk alone more than \$5,000 worth of jewelry had been stylen. At that stage the passengers were informed a TOOK LUNCH TOGETHER held up and nobody knew anything

Colonist Rates Will Stand.

The attempt some of the western lines have been making to have the homeseekers rates raised or abolished proved a fallure. At the transcontinental passenger meeting the Rock Island voted against the proposition of increasing the rate and the matter was dropped. Action on the colonist rates was deferred until the spring meeting. Price Miners' Union Is Asked to Pay for Boston & Montana.

Butte, Mont., Oct. 27.—From the steps of the county court house in this city F. Augustus Helnze addressed a mass meeting of the miners of Butte, over fifteen thousand persons being in attendance. As the representative of John McGinniss, Mr. Helnze in his speech made a counter proposition to the offer of the Butte miners' union to purchase McGinniss' stock in the Boston and Montana and Parrott Mining company and thus end the litigation with the Amalgamated Copper company. After his address, Mr. Heinze had thousands of printed circulars distributed upon the streets of the city. The circular is identical in substance with the oral proposition made by Heinze at the mass meeting, follows:

"John McGinniss purchased the 190 shares of stock in the Boston and Montana company in April or May, 1898, at the cost of \$200 per share. The cost of the stock in the Parrott company owned by Messrs. McGinniss and Lamm was about \$35 per share. John McGinniss was offered in 1899, and at several times subsequently, \$100,000 for the 100 shares of stock in the Boston and Montana company. I understand the Butte Miners' union to be willing now to pay as high as \$59,000 for the Boston and Montana stock and \$100 per share for the Parrot stock.

"I am authorized by Mr. McGinniss and Mr. Lamm to state that they do not wish to make any money out of the sale of this stock, but, on the contrary, are willing to make a sacrifice if a sale thereof will result in benefit of the miners, laborers and business people of Silver Bow county and the state of Montana, and I am authoriezd by them to make the following offer, to wilt:

"That John McGinniss will sell the 100 shares of stock in the Roston and Montana company for \$200 per share, or \$20,000, with interest thereon from the date of purchase at the rate of \$ per cent, per annum, and McGinniss and Lamm will sell their shares of stock in the Parrott company for \$35 per share with interest on the amount at the rate of \$ per cent, per annum.

Secures Life Insurance for Thousands Once Rejected - "I Prescribe it in My Practice and Regard it as a Wonderful Specific in Kidney Dis-eases," he adds.

DR. S. J. READE.

"For many years past I have prescribed Warner's Safe Cure in my own practice and with a marked degree of success. That is one reason why I believe so firmly in it. But my knowledge of its curative properties is not based alone upon my private practice.

"In the course of my work I have had occasion to examine thousands of people for life insurance. Mare were rejected on account of kidney trouble. Yet few suspected the presence of the disease when they came for examination.

"Many of those rejected came later on cured and ready for re-examination and were accepted. I never falled to inquire as to the treatment used and almost without exception I was told that it was Bafe Cure.

"From my own practice, from ebservation of the cases of a very large number of life insurance applicants, and from conversation with follow physicians who prescribe Safe Cure, I can recommend it as a wenderful specific. S. J. READE, M. D.

Kidney troubles creap into the system unawares. Before you know it they are deep seated. Do not neglect yourself If you have any of the following symptoms: pains in the small of the back, painful passing of write, cloudy urine, a reddish brick dust sediment in the urine after it stands it hower, pains in the back of the head and neck, rheumatic pains and swellings in any part of the bedy, eczema. drowsiness, loss of appelite; or if a woman bearing down assessation, painful periods, fainting and other se-called female irroubles. These all tell you your kidneys have been diseased for several months, for outward symptoms seldom show thenselves until the poison has penetrated the diffarent organs, and the danger point has been reached.

Vancouver, B. C., Oct. 27.—Clarence Leonard, wanted in East Orange, N. J., for the alleged forgery of his employer's name to a check for \$10,876, and who, with his wife, was arrested here yesterday at the leading local hotel, was arraigned in the police court. He pleaded guilty to the charge of having brought stolen money into Canada. This plea he withdrew after he had been questioned by the magistrate as to whether or not he had fully considered his position and the consequence of a plea of guilty. The magistrate informed Leonard that the maximum penalty for the offense of which he is churged is seven years' imprisonment. Upon the withdrawal of the plea the case was remanded for one week.

Leonard's wife, when asked to plead, after Leonard's position had been explained to her, said she also would like a remand. It was granted, and in both cases the prisoners will be again asked to plead one week hence. When thou-
